

5th International Symposium on Environmental Sociology in East Asia

30th October - 1st november 2015 Sakura Hall, Tohoku University Sendai, Japan

"Disaster, Risk and Sustainable Community"

Second Announcement

(6TH May 2015)

Having made a round since 2007, by taking turns among Associations of Environmental Sociology in Japan, Korea, Taiwan and China, a second turn of JAES (Japanese Association of Environmental Sociology) comes up again in November 2015 in Sendai, Japan. Co-hosting with RC24 and Institute for Sustainability Research, Hosei University, JAES holds the 5TH International Symposium on Environmental Sociology in East Asia (ISESEA-5) with the theme of "Disaster, Risk and Sustainable Community." We will address what the disasters and other various risks of our societies question as we attempt to construct sustainable communities.

This Symposium is held jointly with one of biannual regular conferences of JAES. Please visit the website of this symposium and update details:

http://www.sal.tohoku.ac.jp/soc/isesea-5/schedule.html

On this site, the *CALL for PAPERS* is now available online *UNTIL the 31st MAY*; Please submit the abstracts via this website of ISESEA-5. We are looking forward to welcoming you all in Sendai.
